Deadline for Next Service Bundle Installation Request for NS Demo Account	03 November 2023
Training Sessions Start	08 November 2023
Certification Deadline	31 December 2023
Release of Certificates	1 February 2023

Run of Day

- Sessions will be hosted on Zoom.
- Sessions will be three (3) hours in length with a 15 min break.
- Trainees are asked to be available during class times.
- Trainees are invited to use open periods as Q&A sessions.
- There will not be online or recorded segments provided from this training.
- The training methodology is a mix of Self-paced learning and Virtual Instructor-Led Training. For the training to be effective, trainees are expected to read the content and watch the videos found in the Training Units pages prior to the sessions. Contents of these units will not be covered in detail during the sessions. Instead, the trainers will provide activities to apply the learnings from the readings.

Training and Certification Time Commitment

We understand that consultants have day jobs during the training period, and we aim to get the right balance of providing an effective training and certification while not taking too much of the consultants' time. Below is a guide on how many hours would be required for the training and certification.

Activity	Estimate Hours to Complete
Training Session 5 days	18
Offline Reading & Homework	7
Certification Deliverable	15
Total:	40

*Actual hours may vary per consultant. Estimates are average data provided by certified consultants.

Based on our experience and feedback received from previous trainees, doing the offline reading and homework before and after the training sessions makes it easier to retain information. Completing the Certification Deliverables as soon as the training session finishes also helps save time.
