1 Business needs

Walker Tape is the industry leader in tape and adhesive for hair replacement systems, they offer innovative products in the hair extension, fashion, and sports industries.

WT has some conditions for shipping since they sell some items considered hazmat. They also sell worldwide. Because of this, they need to only make some shipping options available to customers depending on where they are located (U.S. or outside the U.S. and if they are purchasing hazmat items or not).

As WT I want my customers to be able to see only the shipping methods they can use (according to their country and if the items are hazmat), so that they can place orders from the website.

2 Impacted areas/modules

- **Shipping method section in the checkout** – depending on the address and if the hazmat checkbox is checked there will be different shipping methods available in the website.

3 Acceptance criteria

In the checkout customers will be able to see only the shipping methods that apply to them and they will depend on where they need to ship to and if they are purchasing any hazmat items (with the hazmat checkbox checked in the item record).

Shipping methods that will be available:

Display Code	HazMat
Request a Quote for LTL Freight - A Representative will reach out to you shortly	Available for either
FedEx 2Day®	Available for either
FedEx Express Saver® 3-Day	Available for either
FedEx Ground® Economy	Available for either
FedEx International Economy®	Available for non-Haz Mat
FedEx International Priority®	Available for non-Haz Mat
FedEx Priority Overnight®	Available for either
Don't see the shipping method you prefer? Select this option and a rep will contact you shortly	International HazMat
International Economy Hazardous	International Hazmat to certain countries
You are in a country that has shipping restrictions, a rep will reach out to you	International Hazmat to certain countries
International Priority Hazardous	International Hazmat to certain countries

U.S. customers purchasing non-hazmat products shipping methods:

Request a Quote for LTL Freight - A Representative will reach out to you shortly
 FedEx 2Day®
 FedEx Express Saver® 3-Day
 FedEx Priority Overnight®
 FedEx Ground® Economy
 FedEx International Economy®
 FedEx International Priority®

U.S. customers purchasing hazmat products shipping methods:

Request a Quote for LTL Freight - A Representative will reach out to you shortly
 FedEx 2Day®
 FedEx Express Saver® 3-Day
 FedEx Priority Overnight®
 FedEx Ground® Economy

International customers purchasing hazmat and non-hazmat products shipping methods:

Don't see the shipping method you prefer? Select this option and a rep will contact you shortly
 International Economy Hazardous
 You are in a country that has shipping restrictions, a rep will reach out to you
 International Priority Hazardous

4 Solution proposal

A new extension will be created that will filter out the shipping methods by the customer's shipping address (U.S. address or international address) and if the order has items considered hazmat (has the hazmat field checked).

For example, for a U.S. address with a hazmat item (this is only for example purposes) we will have the following shipping methods display like this:

CHECKOUT

1. Shipping Address / 2. Payment / 3. Review

Choose Shipping Address

☒ 1234 Main Street

5 Prerequisites

There is already a field to flag which items are considered hazardous.

6 Assumptions

WT will check the checkbox to flag hazmat items

7 Constraints and limitations

If there is a new shipping method, it will need to be included on the mapping. Same happens if there is one that won't be offered any longer.

8 Risks

The hazardous checkbox is checked manually – if there is a mistake the customer might need to choose a different shipping method.

Oracle + NetSuite Professional Services and Customer are in agreement that the information documented above is accurate and representative of the customer's business needs. This document will act as the basis for all subsequent implementation activities.
